

AG FLEXI PIPE CLASS 400

DESCRIPTION:

Agriculture Pipe is a corrugated, single-wall HDPE SN8/Class 400 pipe designed to facilitate drainage.

It is available in three variations: slotted, unslotted, and with a protective sock. The pipe is composed of both recycled and virgin HDPE material.

USES:

Allows for drainage in the following areas:

Civil Projects: Roads, Landscaping, Building Foundations, Mines & Quarries

Land Drainage: Sportsgrounds, Racetracks, Golf Courses, Parks & Gardens

Agricultural Drainage: Water Table monitoring, Irrigation, Salinity control, Hill Slope drainage

Domestic Drainage: Lawns & Gardens, Driveways & Paths, Home Water seepage, Foundations & Retaining Walls.
