

POLYFABRIC

DESCRIPTION:

A high quality polyethylene based poly-fabric available in a range of colours.

USES:

Industrial and agricultural tarpaulins, covers, liners and membranes

SIZES:

2.05m x 50m roll

SPECIFICATION:

• Material	Yam—UV stabilized HDPE
• Temperature Range	-30 to +70°C
• Nominal Fabric Mass (gsm)	190
• Nominal Thickness (mm)	~0.45
• Tensile Strength—warp	750 (N/50mm)
• Elongation at Warp (%)	30
• Tensile Strength—weft	750 (N/50mm)
• Elongation at weft (%)	30
• Wing Tear—warp (N)	150
• Wing Tear—weft (N)	150
• Hydrostatic Pressure (kPa)	100
• Flammability Index (range 0-100)	3
• Lead	Not detected
• Pthalate	Not detected
• Colours	Blue, Green
• Warranty (years)	N/A
