

## BIYCELL EAVE FILLER STRIP ADHESIVE - CUSTOM ORB PROFILE

### DESCRIPTION:

Biycell Eave Filler Strip Adhesive is a grey, closed cell flexible cross linked polyethylene foam incorporating an adhesive backing, to suit Custom Orb sheet profile. It is a durable material having excellent shock absorbing and heat resistant properties. For easy placement, the eave filler strip is available with an adhesive backing.

### USES:

Typical applications include moisture, dust and vermin proofing of metal wall and roof cladding.

### SIZE:

Biycell Eave Filler Strip Adhesive - Custom Orb profile is available in a 918mm length. Other profiles are available upon request.
