

BIYCELL SFR EAVE FILLER STRIP BAL 40

DESCRIPTION:

Biycell SFR Bal 40 Impregnated Foam is a profiled and compressible self extinguishing foam. It is available in lengths cut in various profiles as shown below, with some special profiles available on request.

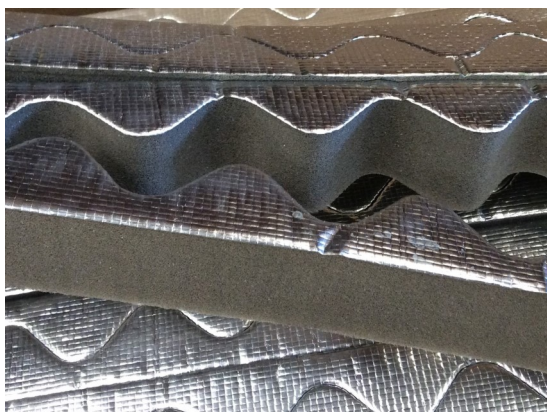

USES:

Acts as an ideal filler and seal against dust, moisture, vermin, etc

Is self extinguishing, making it suitable for bush fire prone areas.

STANDARDS COMPLIANCE:

AS 1530.8.1 CSIRO

TECHNICAL DATA:

PROPERTY	DATA
Density	95 Kg/m ³
Indentation Force on Deflection - I.F. 25 - I.F. 40 - I.F. 65	225N 310N 950N
Recovery Ratio	38%
Indentation Factor 65%/25%	4.2
Resilience	28%
Tensile Strength	89kPa
Elongation	90%
Tear Strength	267 N/m
Compression Set, 75%	57.7% at 70°C

SIZES:

Biycell SFR Bal 40 Eave Filler Strips are available in various profiles and also a rectangular strip **50mm x 25mm x 1m**.
