

STRETCH FILM

DESCRIPTION:

Stretch Film is a protective wrap for stabilizing loads/cartons during storage and transportation.

Stretch Film is available in either clear or black and in a range of thicknesses.

Stretch Film is available in either a hand or machine application roll.

Stretch film is available in 2 grades:-

Blown - for both hand and machine

Cast - for both hand and machine

SIZES:

Blown - Hand rolls

Clear - 500mm x 20, 23 & 25um

Black - 500mm x 20 & 25um

Blown - Machine rolls

Clear - 500mm x 25um

Black - 500mm x 25um

Cast - Hand rolls

Clear - 500m x 20, 23 & 25um

Cast - Machine rolls

Clear - 500mm x 20 & 25um

FEATURES & BENEFITS:

Blown:

- High quality stretch & holding power
- High tear resistance
- Cloudy until stretched

Cast:

- Double sided cling
- Enhanced clarity
- Low cost of manufacture thus less expensive
- Lesser load holding power and lower tear resistance compared to blown
